

SHARED DATA DOWNLOAD TO CONTROLBOARD FOR COMFORTBRIDGE™ PRODUCTS

ATTENTION INSTALLING PERSONNEL

As a professional installer, you have an obligation to know the product better than the customer. This includes all safety precautions and related items.

Prior to actual installation, thoroughly familiarize yourself with this Instruction Manual. Pay special attention to all safety warnings. Often during installation or repair, it is possible to place yourself in a position which is more hazardous than when the unit is in operation.

Remember, it is **your** responsibility to install the product safely and to know it well enough to be able to instruct a customer in its safe use.

Safety is a matter of common sense...a matter of thinking before acting. Most dealers have a list of specific good safety practices...follow them.

The precautions listed in this Installation Manual are intended as supplemental to existing practices. However, if there is a direct conflict between existing practices and the content of this manual, the precautions listed here take precedence.

SAFETY PRECAUTIONS

The following symbols and labels are used throughout this manual to indicate immediate or potential safety hazards. It is the owner's and installer's responsibility to read and comply with all safety information and instructions accompanying these symbols. Failure to heed safety information increases the risk of personal injury, property damage, and/or product damage.

WARNING

POSSIBLE PROPERTY DAMAGE, PERSONAL INJURY OR DEATH DUE TO FIRE, EXPLOSION, SMOKE, SOOT, CONDENSATION, ELECTRICAL SHOCK OR CARBON MONOXIDE MAY RESULT FROM IMPROPER INSTALLATION, REPAIR OPERATION, OR MAINTENANCE OF THIS PRODUCT.

WARNING

HIGH VOLTAGE !

TO AVOID PERSONAL INJURY OR DEATH DUE TO ELECTRICAL SHOCK, DISCONNECT ELECTRICAL POWER BEFORE SERVICING OR CHANGING ANY ELECTRICAL WIRING.

INSTALLATION

The following procedure will ensure Shared Data is successfully loaded onto the control board for ComfortBridge™ products.

1. Attach the appropriate Shared Data card for the installed model number to the unit's Control Board using the white connector as shown in the image to the right.

NOTE: The location of the white connector will vary between furnace and air handler products.

White Connector

Installed Shared Data Card

2. Using the 3 push buttons on the PCB, press and release the right most button until "Cr" (Code Revision) is displayed.
5. Simultaneously release both the pushbuttons. "no" will be displayed.

3. Press and release the center pushbutton, the Code Revision value will be displayed.
6. Press and release either left or right button. This will toggle the display between "YES" and "no".

4. Simultaneously press and hold both the left and right push buttons for approximately 10 seconds until "dL" is displayed.

7. With the display showing “YES” press and release the center button twice to start the download.

8. Upon completion the display will flash the Code Release value indicating shared data has been successfully loaded. Turn off power to the unit and remove the shared data card. Then turn the power back on the unit to verify the shared data transfer by testing unit operation.

CUSTOMER FEEDBACK

We are very interested in all product comments.

Please fill out the feedback form on one of the following links:

Quality Makes the Difference!

All of our systems are designed and manufactured with the same high quality standards regardless of size or efficiency. We have designed these units to significantly reduce the most frequent causes of product failure. They are simple to service and forgiving to operate. We use quality materials and components. Finally, every unit is run tested before it leaves the factory. That's why we know. . . **There's No Better Quality.**
