This exploded view diagram illustrates the assembly of a refrigerator, detailing the main body, door, and internal components. The diagram is organized into several sections, each representing a different part of the unit:

- Main Body Assembly:** Includes the front panel (F1), top panel (F2), and side panels (F3, F4). The internal components like the evaporator (E1), condenser (E2), and compressor (E3) are shown being installed into the main body.
- Door Assembly:** Shows the door panel (F5) being attached to the door frame (F6). The door handle (F7) and door hinge (F8) are also indicated.
- Internal Components:** The evaporator (E1) and condenser (E2) are shown being installed into the main body. The compressor (E3) is shown being installed into the main body.
- Accessories:** Includes the ice maker (A1), water filter (A2), and various other components like the defrost timer (A3) and defrost heater (A4).

The diagram uses a combination of letters and numbers to identify specific parts and their assembly order.
